REPORT OF THE INDEPENDENT AUDITOR TO THE DIRECTORS OF GRAPHIIC COMMUNICATIONS GROUP LIMITED

Opinion

We have audited the consolidated financial statements of Graphic Communications Group Limited, which comprise the statement of financial position as at 31st December 2022, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, (or give a true and fair view of) the financial position of the Group as at 31st December 2022, and (of) its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under these standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements' section of our report.

We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements for the current period. These matters were addressed in the context our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to communicate in our audit report.

Directors' responsibilities for the financial statements

The Board of Directors is responsible for the preparation and fair presentation of these financial statements in accordance and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, The Board of Directors is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless The Board of Directors either intends to liquidate the Authority or to cease operations, or has no realistic alternative but to do so. The Board of Directors is responsible for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also;

Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with The Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

We confirm that:

- (i) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
- (ii) In our opinion proper books of accounts have been kept by the Group, so far as it appears from our examination of those books; and
- (iii) The financial position and financial performance of the Group agree with the books of accounts.

The engagement partner on the audit resulting in this independent auditor's report is Julius Aikins-Hawkson (ICAG/P/1166).

Alkins-Hawkson Has.

NOTES TO THE FINANCIAL STATEMENTS

Summary of significant accounting policies

1. General information

Graphic Communications Group Ltd (GCGL) was established in the Gold Coast as a private business in 1950 by the Daily Mirror Group of Britain. At that time, the company was named the West African Graphic Company Limited. After acquiring the company, the government changed the name from Ghana Graphic Company to Graphic Corporation the following year, 1965. But it was in 1971 that a legislative instrument, Graphic Corporation Instrument 1971, LI 709, was passed to incorporate the company as a statutory corporation in compliance with the Statutory Corporations Act, 1964 (Act 232). The principal activities of Graphic Communications Group Limited is to print and publish newspapers and provide advertisement services, whereas the subsidiary G-Pak Limited is to provide pre-press, press and post press services.

The address of the Group's registered office is indicated in page ii.

2. Summary of significant accounting polices

2.1 Basis of preparation

The financial statements have been prepared in accordance with the International Financial Reporting Standards (IFRS) and under historical cost convention as modified by revaluation of certain fixed assets.

2.2 Revenue recognition

The Group's revenue consists of proceeds from publication of newspapers and advertisement services and post press services. The Group recognises revenue when the amount of revenue can be reliably measured; when it is probable that the economic benefits associated with transaction will flow to the entity; and when specific criteria have been met for each of the Group's activities. Revenue is measured at fair value of its consideration.

2.3 Expenditure

Expenditure consists of costs incurred for the activities of the Group. Expenses are recognised when incurred.

2.4 Foreign currency transactions

(a) Functional and presentation currency

These financial statements are presented in Ghana Cedis (GH¢), which is the Group's functional and presentation currency. Except otherwise indicated, the financial information presented has been rounded off to the nearest GH¢.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transaction and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in profit or loss. Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in profit and loss within "Finance income and cost". All other foreign exchange gains and losses are presented in profit or loss within "other income or expense".

2.5 Intangible assets

Intangible assets are amortised on the basis of the expected useful lives using the straight - line method. Maximum useful life 5 years. IAS 38 requires an entity to recognise an intangible asset, whether purchased or self-created (at cost) if, and only if: It is probable that the future economic benefits that are attributable to the asset will flow to the entity; and the cost of the asset can be measured reliably. The requirement applies whether an intangible asset is acquired externally or generated internally. IAS 38 includes additional recognition criteria for internally generated intangible assets. The probability of future economic benefits must be based on reasonable and supportable assumptions about conditions that will exist over the life of the asset. If an intangible item does not meet both the definition of and the criteria for recognition as an intangible asset, IAS 38 requires the expenditure on this item to be recognised as an expense when it is

incurred. Intangible assets are initially measured at cost, and subsequently measured using cost model or revaluation model.

2.6 Property, plant and equipment

Recognition and measurement

Items of property, plant, and equipment are measured at cost and revalued amounts less accumulated depreciation and any accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset.

Gains and losses on disposal of plant and equipment are determined by comparing proceeds from disposal with the carrying amounts of plants and equipment and are recognized in profit or loss as other income

Depreciation

Depreciation is calculated over the depreciable amount, which is the cost of an asset or other amount substituted for cost, less its residual value.

Depreciation is recognized in profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. Leased assets are depreciated over the shorter of the lease term and their useful lives.

Depreciation rates

The depreciation rates used for each significant class of property, plant and equipment are

Item	Rate
Land and buildings	3%
New Press Building	3%
Plant & machinery	10%
Motor vehicles	20%
Office equipment	20%
IT Equipment	33%
Furniture & Fitting	20%
Intangible Assets	33%

Depreciation methods, useful lives, and residual values are reassessed at each reporting date and adjusted, if appropriate.

2.7 Inventory

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the first-in-first-out principle, and include expenditure incurred in acquiring the inventories, production or conversion cost, and other cost incurred in bringing them to their existing location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity. Cost also includes transfers from equity of any gain or loss on qualifying cash flow hedges of foreign currency purchases of inventories.

2.8 Trade and other accounts receivable

Trade and other receivables are made up of amounts due from customers, staff loans and prepayments. If collection is expected in one year or less, they are classified as current assets. If not, they are presented as non-currents assets.

Bad debts written off relates to those debtors that have been individually reviewed and specifically identified as bad or doubtful.

2.9 Cash and cash equivalents

Cash and cash equivalents are defined as cash and bank balances, and investments in marketable securities that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. In the statement of cash flows, cash and cash equivalents are made up of cash and bank balances as at period end.

2.10 Trade and other accounts payable

Trade and other accounts payable are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade payables are recognized initially at fair value and subsequently measured at amortised cost using the effective interest method.

2.11 Provisions

A provision is recognized when the Group has a resent legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation and reliable estimate of the amount of the obligation can be made. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. The unwinding of discount is recognized as finance cost in profit or loss.

2.12 Post balance sheet event

Events subsequent to the balance sheet date are reflected only to the extent that they relate to the financial statements and when their effect is material.

3. Employee Benefit

The Group has defined contribution scheme where statutory contributions are made to the Social Security and National Insurance Trust and United Pensions Trust on behalf of employees and the employer contributes 5.5% and 13% respectfully to the fund. This is statutory requirement. In addition, the Group contributes 12% to a provident fund on behalf of the employees. The Group has no further obligation once the contributions have been paid. These contributions continue as long as the employee remains in active employment of the Group and are recognised employee benefit expenses when they are due.

4. Critical accounting estimates, judgments and errors

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including experience of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

Balance c/f	40,337,627	1,459,818	40,337,627	1,459,818

Revaluation surplus was as a result of a valuation done by Dimens Property Consult (Chartered Valuation & Estate Surveyor) for 3 buildings effective November 2022. Had the revaluations not been done the carrying value of the buildings reported would have been GHC576,246. There is no restriction on the distribution to shareholders for the balance of the revaluation surplus.

21. CAPITAL SURPLUS

This was as a result of assets revaluation undertaken in 1995 and 2005 by William Ofori & Co. (Valuers, Estate Managers, Development and Tax Consultants). Portion of the capital surplus realised amounting to GHC1,949,847 was transferred to Income Surplus on the 31st December 2011 and GHC 137,158 was transferred from 2012 to 2016. In 2014 a further GHC 833,296 was written off to cater for the net book value of the cluster of buildings which were pulled down to pave way for the construction of the new press building. The annual transfer of GHS 137,158 has also been transferred to Income Surplus for 2022.

Three Buildings in the above schedule were revalued effective November 2022 by Dimens Property Consult (Chartered Valuation & Estate Surveyor). Had the assets been recognised under the cost model, their carrying value reported would have been GHC 576,246. There is no restriction on the distribution of the balance from the revaluation surplus of GHC 39,196,745.
